

The United States "Citizenship, Involvement, Democracy" (CID) Survey

The U.S. CID Survey was conducted in May-July 2005 with a nationally representative sample of Americans, using in-person interviews. These tables provide basic findings on some of the questions from the survey—organized by theme—with the overall results as well as breakdowns by gender, education, age group, and ethnicity/race.

	<u>Total</u>	<u>Gender</u>		<u>Education</u>			<u>Age Group</u>				<u>Ethnicity/Race</u>		
		<i>Female</i>	<i>Male</i>	<i>≤ High School</i>	<i>Some College</i>	<i>College Degree +</i>	<i>18-34</i>	<i>35-49</i>	<i>50-64</i>	<i>65+</i>	<i>White</i>	<i>Black</i>	<i>Hispanic</i>
Weighted number of respondents	1001	517	484	475	273	252	367	225	213	155	706	111	124

Note: the race/ethnicity breakdown shows Whites, Blacks, and Hispanics only; Asians and "Other" are not included because they are too small a portion of the sample

Note: column percentages shown below do not always total exactly 100%, due to rounding

Note: the weight used for these results was the variable NATWT

Theme: Personal Networks

Now I want to ask you some questions about people you are really close to, that is people you feel at ease with and can talk to about whatever's on your mind or call on for help. Though this may include family members, in the questions that follow I will refer to these people as your close friends.

CLOSEN How many close friends do you have?
